Summary

Mobile Engineer with 3+ years of experience building mobile applications across delivery, e-commerce, and enterprise platforms, with hands-on exposure to production systems used in day-to-day operations.

Professional Experience

Flutter Developer · Eshhar Marketing Agency
Remote · Saudi Arabia

Oct 2025 – Present

- Worked on building and improving mobile applications used in real business environments, with focus on code quality, performance, and long-term maintainability.
- Collaborated with the team to deliver stable features and support ongoing product development across multiple releases.

Flutter Developer · App Pump
Zagazig, Egypt

Apr 2023 – Aug 2025

- Contributed to mobile development across different projects, supporting feature implementation, application reliability, and improving day-to-day application usability.
- Supported ongoing improvements related to performance, code quality, and release readiness within production environments.

Flutter Developer Intern · Technique Company
Zagazig, Egypt

Jul 2021 – Dec 2021

- Supported mobile application development across multiple client projects, contributing to feature development, UI implementation, and everyday engineering tasks within agile teams.
- Assisted in improving application structure, integrating backend services, and resolving performance and stability issues in Flutter applications.

Projects

Forrira — Multi-Vendor Delivery App [App Store](#) · [Play Store](#)

- Built a delivery platform connecting customers, vendors, and drivers through real-time ordering and tracking workflows.
- Handles customer orders, vendor operations, driver assignment, and real-time delivery tracking workflows.

GoTawfeer — E-Commerce Platform [App Store](#) · [Play Store](#)

- Built a mobile commerce application supporting shopping, ordering, checkout, and customer account workflows across multiple retail categories.
- Supports day-to-day purchasing operations for beauty products, perfumes, fashion items, and home appliances.

Ivory Training — Enterprise Training Platform [Play Store](#)

- Developed an enterprise training platform supporting online learning, video streaming, certifications, and subscription-based training services.
- Handles online learning sessions, recorded content, certifications, subscriptions, and offline course access for enterprise training workflows.

Sweetna — Dessert Ordering Platform [Play Store](#)

- **Developed a customer-facing ordering application supporting product discovery, cart management, and day-to-day ordering workflows within active business operations.**
- **Handles customer ordering flows including product browsing, cart management, and order tracking within a dessert ordering experience.**
